

OUR STORY

Coda was founded on the ideal that passion for what we do and paying attention to detail sets us apart in a crowded and ever increasingly consolidated industry. With one of the highest employee retention rates in the industry, our team is rooted in integrity, creativity, and follow-through.

OUR WORK

Whether we are designing collaboration spaces, town hall event centers or large format direct view LED video walls, Coda approaches all projects with the same goals; enhance user adoption with ease of use, build for the future while developing and maintaining global standards.

OUR CLIENTS

At Coda, we provide full turnkey design and implementation services. With customers in corporate, broadcast, government, education, bio-tech, and the performing arts, our projects range from simple to complex.

We offer audiovisual solutions for digital signage, workplace collaboration, corporate auditoriums, performance & theatrical, broadcast & production, and command & control.

Some of our clients include

Your team
connected

WITH YOU ALL THE WAY

From the outset of each project in programmatic design, through design development and on to infrastructure coordination, our project managers and engineers work closely with your entire project team to deliver world-class results. But, it doesn't end there: our service and monitoring solutions provide you and your organization with peace of mind and support – long after that first day of business.
